NOTICE OF PRESSURE CLEANING COMMON WALL - WATER USAGE

Dear Homeowner:

The common walls in The Hamptons are being prepared for painting on the exterior side. Pressure cleaning is required prior to prep and paint. In order for the painters to pressure clean they need access to water.

It is possible that your water spigot will be used while the area of wall at your home is being cleaned. This process uses a very insignificant amount of water. Please understand and allow for the painters from Coastal Painting to utilize the water if needed for this purpose.

If you have any questions or concerns, please contact Bristol Management at 575-3551.

Thank you for your anticipated cooperation with this project.

Sincerely,

Pamela Adams, LCAM
